

PEACE RIVER NORTH

INTERNATIONAL STUDENT PROGRAM

WWW.PR.N.BC.CA/INT

Natural Resource Management

It's a camp about natural resources and how we humans use and care about wood and resources. The camp went from Oct 3rd to 4th, 2011. We went to beautiful Gwilliam Lake with around 20 students accompanied by Ms. Ma and Mr. Mayer from School District #60. We participated in 6 workshops. In the workshops we learned about the animals which live in the forest and forest health as well as silver-culture. It was very interesting and we learned a lot.

We played cards and talked a lot, some of the people may have even found their dream jobs!. In the evening, we came together for a big campfire and some people warmed up in the sauna.

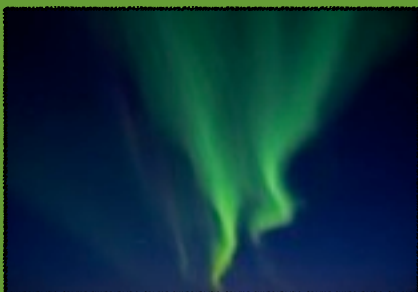

We woke up on the second day and enjoyed a big pancake breakfast (Thanks to the crew in the kitchen) and then we started with our final workshops. At the end of our camp we got some t-shirts before we started back to school. **By Lisa Pligrim**

International Students Get a Skating lesson

International Students from North Peace Secondary School hit the ice with the Hockey Class to get a skating lesson. For many students this was their first time on skates. The Hockey class from North Peace Secondary School were very generous to share their ice time and proved to be excellent

teachers. All the students had a lot of fun. It was a great opportunity to meet some new friends and have a lot of fun. Students from the Hockey Class shared their ice time and their experience to teach the students how to skate.

NORTHERN LIGHTS The Aurora Borealis danced across the sky in September. The show consisted of green stretches of light going clear across the sky.

STUDENT BLOG Sholola Oluwafunmito is writing a monthly blog on her experiences as a secondary school student in School District #60

BRITISH COLUMBIA & ALBERTA post secondary schools visited North Peace Secondary School so students could discuss post secondary options with recruiters.

The Peace River North School District

is located on the eastern side of the Rocky Mountains in northern British Columbia. We are a small friendly community, blending distinct provincial perspectives of two strong provinces, Alberta and British Columbia. Fort St. John, known as the Energetic City is the home of world champions in leading sports and now the home of the Pomeroy Center. This facility, a world class venue for sports training, community events and is also one of the largest wood built complexes in the world. The Peace River North School District is proud to announce that, this facility will house educational services including an expansion to the International Program.
